

# The quickest way to set up your own playlist download URL

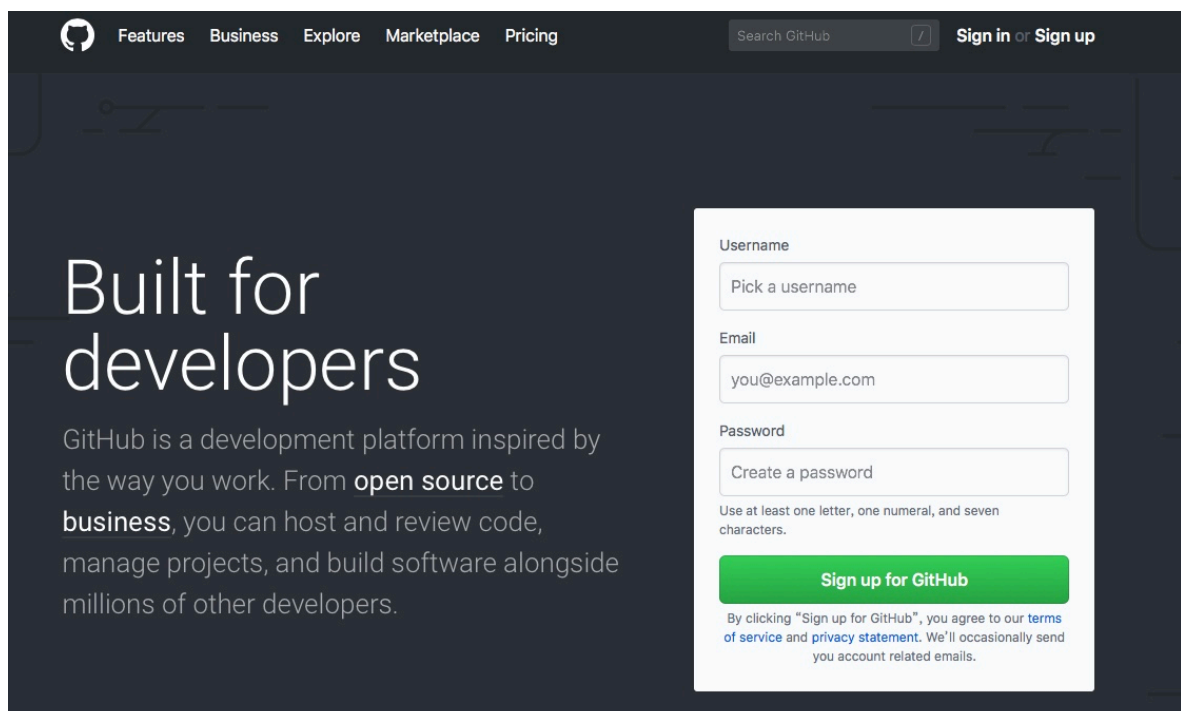

Before start, You have to finish the following work:

- (1) Your playlist files (xxx.txt or xxx.m3u) are ready.
- (2) You have a valid email.

Let's go.

## Step 1

Access: <https://github.com>

The screenshot shows the GitHub website's sign-up interface. The top navigation bar includes links for Features, Business, Explore, Marketplace, and Pricing, along with a search bar and 'Sign in' or 'Sign up' options. The main content area features the text 'Built for developers' and a description of GitHub as a development platform. On the right, a sign-up form is displayed with fields for Username, Email, and Password, each with a placeholder text. Below the password field, there is a note about password requirements and a green 'Sign up for GitHub' button. At the bottom of the form, a disclaimer states that by clicking 'Sign up for GitHub', the user agrees to the terms of service and privacy statement.

Features Business Explore Marketplace Pricing Search GitHub Sign in or Sign up

## Built for developers

GitHub is a development platform inspired by the way you work. From **open source** to **business**, you can host and review code, manage projects, and build software alongside millions of other developers.

Username  
Pick a username

Email  
you@example.com

Password  
Create a password

Use at least one letter, one numeral, and seven characters.

**Sign up for GitHub**

By clicking "Sign up for GitHub", you agree to our [terms of service](#) and [privacy statement](#). We'll occasionally send you account related emails.

# Step 2

Create an account

For example:

Username: **AppleTVPlaylistFile** (you can use yourname or any words if you like) (you will use it as **Repository name** in Step 6)

Email: you@example.com

Password: xxxxxxxxxxxxxxxxxxxx

Click [Sign up for GitHub](#)

## Welcome to GitHub

You've taken your first step into a larger world, @!

 <b>Completed</b> Set up a personal account	 <b>Step 2:</b> Choose your plan	 <b>Step 3:</b> Tailor your experience
---	--	---

### Choose your personal plan

☒ Unlimited public repositories for free.

☐ Unlimited private repositories for \$7/month. [\(view in CNY\)](#)

Don't worry, you can cancel or upgrade at any time.

☐ **Help me set up an organization next**  
Organizations are separate from personal accounts and are best suited for businesses who need to manage permissions for many employees.  
[Learn more about organizations](#)

☐ **Send me updates on GitHub news, offers, and events**  
Unsubscribe anytime in your email preferences. [Learn more](#)

Continue

**Both plans include:**

- ✓ Collaborative code review
- ✓ Issue tracking
- ✓ Open source community
- ✓ Unlimited public repositories
- ✓ Join any organization

Click [Continue](#)

# Welcome to GitHub

You'll find endless opportunities to learn, code, and create, @

 <b>Completed</b> Set up a personal account	 <b>Step 2:</b> Choose your plan	 <b>Step 3:</b> Tailor your experience
---	--	--

How would you describe your level of programming experience?

- ☐ Very experienced      ☐ Somewhat experienced      ☒ Totally new to programming

What do you plan to use GitHub for? (check all that apply)

- ☐ Design      ☐ Research      ☒ Development  
☐ School projects      ☐ Project Management      ☐ Other (please specify)

Which is closest to how you would describe yourself?

- ☒ I'm a professional      ☐ I'm a hobbyist      ☐ I'm a student  
☐ Other (please specify)

What are you interested in?

e.g. tutorials, android, ruby, web-development, machine-learning, open-source

[skip this step](#)

## Step 3

Click [Skip this step](#)

## Learn Git and GitHub without any code!

Using the Hello World guide, you'll create a repository, start a branch, write comments, and open a pull request.

## Step 5

Login in your email to [Verify your email address](#).

You will see an email from GitHub.

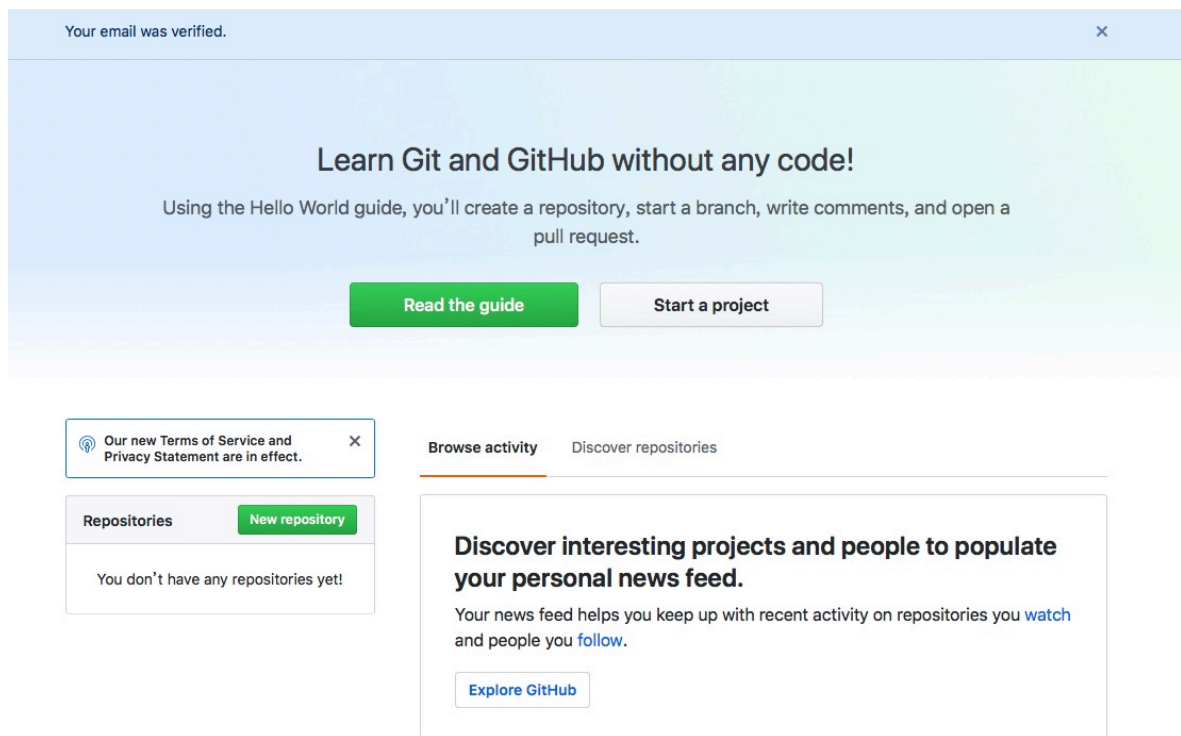

Open it, Click [Verify email address](#)

Help us secure your GitHub account by verifying your email address  
GitHub's features.

[Verify email address](#)

Then, GitHub Page will change

## Step 6

Again, Click [New repository](#)

## Create a new repository

A repository contains all the files for your project, including the revision history.

Owner

Repository name

AppleTVPlaylistFile

Great repository names are short and memorable. Need inspiration? How about **animated-journey**.

Description (optional)

☒ **Public**

Anyone can see this repository. You choose who can commit.

☐ **Private**

You choose who can see and commit to this repository.

☐ **Initialize this repository with a README**

This will let you immediately clone the repository to your computer. Skip this step if you're importing an existing repository.

Add .gitignore: **None**

Add a license: **None**

Create repository

Fill **Repository name** with **AppleTVPlaylistFile**, just the SAME AS your GitHub Username. (Yes, you can use other words if you like.)

Click **Create repository**

[Code](#) [Issues 0](#) [Pull requests 0](#) [Projects 0](#) [Wiki](#) [Insights](#) [Settings](#)

### Quick setup — if you've done this kind of thing before

[Set up in Desktop](#) or [HTTPS](#) [SSH](#)

We recommend every repository include a [README](#), [LICENSE](#), and [.gitignore](#).

### ...or create a new repository on the command line

```
echo "# README.md" > README.md
git init
git add README.md
git commit -m "first commit"
git remote add origin https://github.com/yourusername:your-repo-name
git push -u origin master
```

### ...or push an existing repository from the command line

```
git remote add origin https://github.com/yourusername:your-repo-name
git push -u origin master
```

### ...or import code from another repository

You can initialize this repository with code from a Subversion, Mercurial, or TFS project.

[Import code](#)

# Step 7

Click [Settings](#)

Find the [GitHub Pages](#)

## GitHub Pages

GitHub Pages is designed to host your personal, organization, or project pages from a GitHub repository.

### Source

GitHub Pages is currently disabled. You must first add content to your repository before you can publish a GitHub Pages site. [Learn more.](#)

None ▾

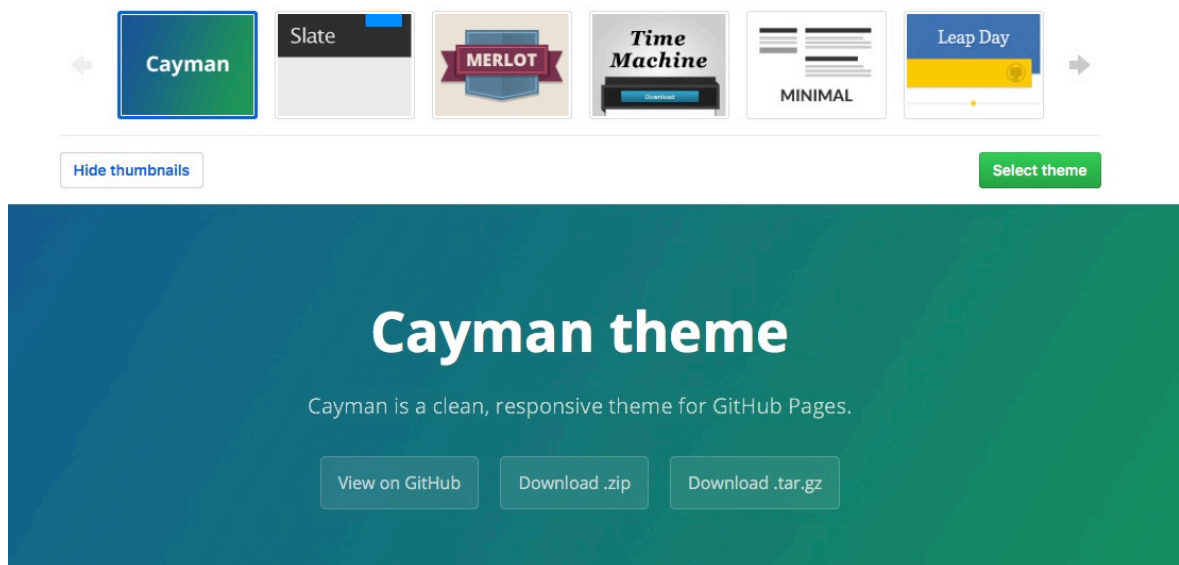

Save

### Theme Chooser

Select a theme to publish your site with a Jekyll theme using the master branch. [Learn more.](#)

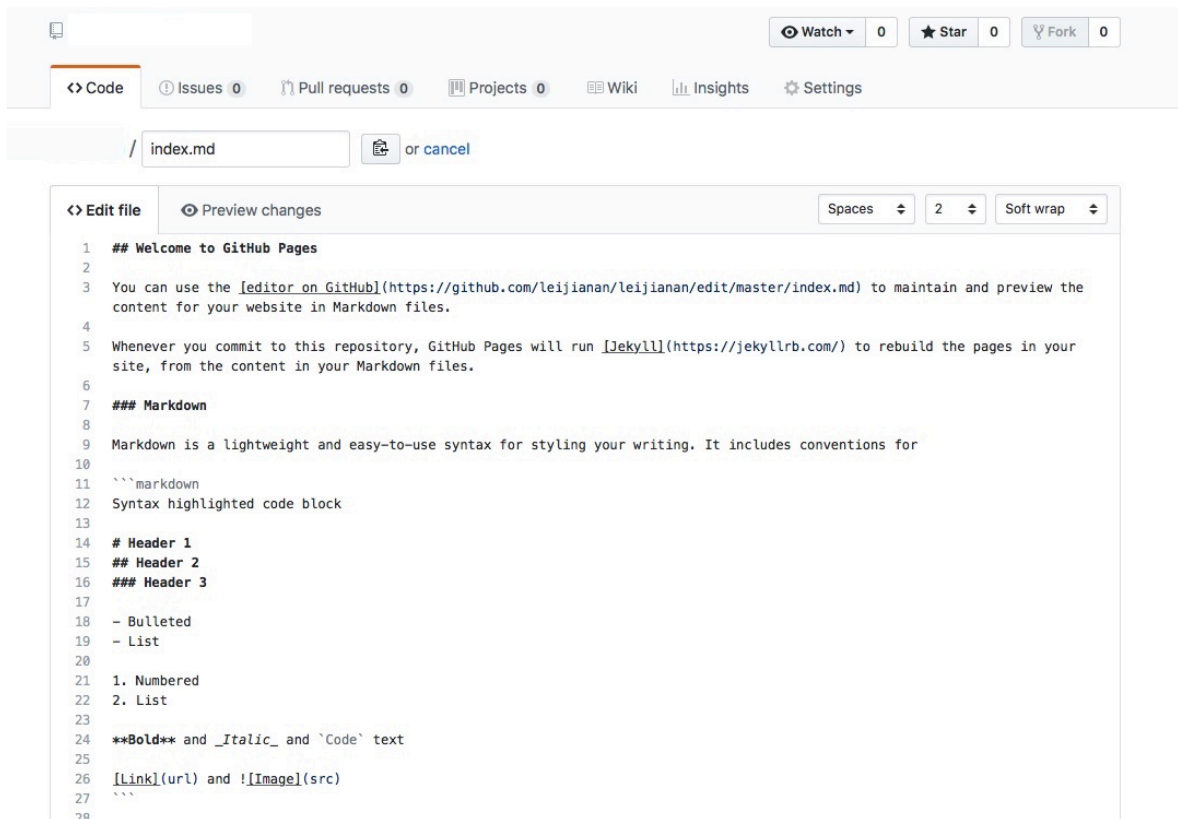

Choose a theme

Click [Choose a theme](#)

Select the default theme (Cayman), Click [Select theme](#)

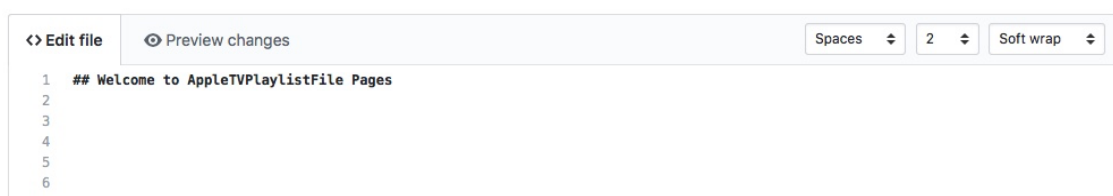

You will see the following pages that you can edit.

The screenshot shows the GitHub web interface for editing a file named `index.md`. The repository has 0 Watchers, 0 Stars, and 0 Forks. The file content is as follows:

```
1  ## Welcome to GitHub Pages
2
3  You can use the \[editor on GitHub\](https://github.com/leijianan/leijianan/edit/master/index.md) to maintain and preview the
4  content for your website in Markdown files.
5
6  Whenever you commit to this repository, GitHub Pages will run \[Jekyll\](https://jekyllrb.com/) to rebuild the pages in your
7  site, from the content in your Markdown files.
8
9  ### Markdown
10
11  Markdown is a lightweight and easy-to-use syntax for styling your writing. It includes conventions for
12
13  ```markdown
14  Syntax highlighted code block
15
16  # Header 1
17  ## Header 2
18  ### Header 3
19
20  - Bulleted
21  - List
22
23  1. Numbered
24  2. List
25
26  **Bold** and Italic and `Code` text
27
28  [Link](url) and ![Image](src)
29  ```
```

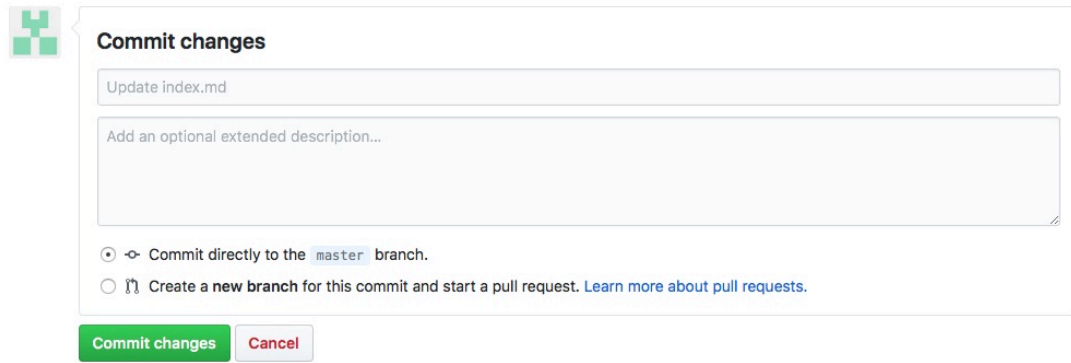

You can delete all these lines, then enter some words as below.

The screenshot shows the same GitHub web interface, but the file content has been simplified to a single line:

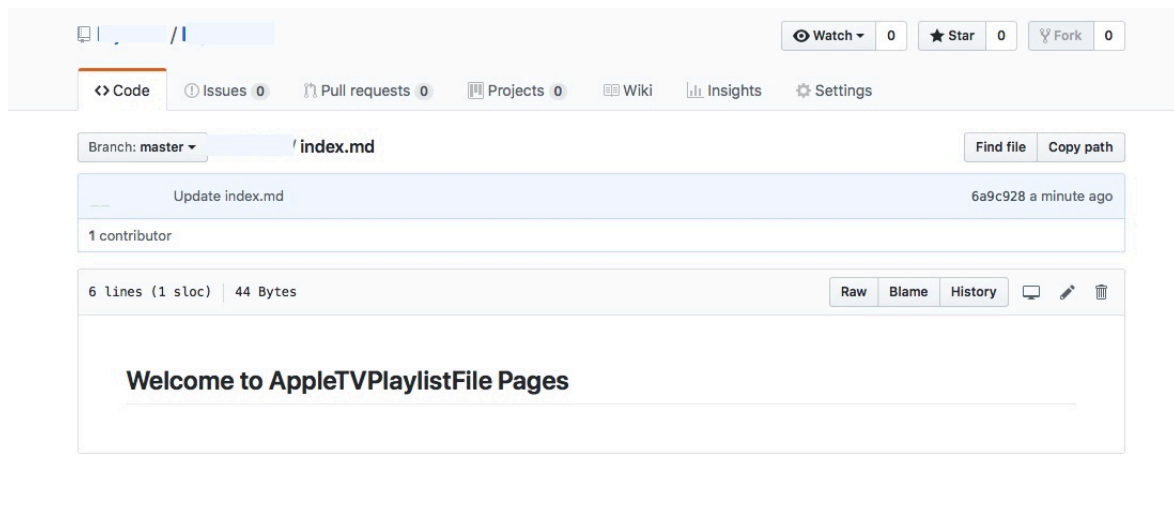

```
1  ## Welcome to AppleTVPlaylistFile Pages
2
3
4
5
6
```

You have your own webpage! Just one line.

The image shows a 'Commit changes' dialog box. It has a title bar with a green icon. Below the title, there is a text input field containing 'Update index.md'. Underneath that is a larger text area with the placeholder 'Add an optional extended description...'. At the bottom, there are two radio buttons. The first is selected and labeled 'Commit directly to the master branch.' The second is labeled 'Create a new branch for this commit and start a pull request. Learn more about pull requests.' At the very bottom, there are two buttons: a green 'Commit changes' button and a grey 'Cancel' button.

Click [Commit changes](#), you will see the following page.

The image shows a GitHub repository file view for 'index.md'. At the top, there is a navigation bar with 'Code', 'Issues', 'Pull requests', 'Projects', 'Wiki', 'Insights', and 'Settings'. Below this, the file path is shown as 'Branch: master / index.md'. To the right of the path are buttons for 'Find file' and 'Copy path'. The file name 'index.md' is highlighted in blue. Below the file name, it says 'Update index.md' and '6a9c928 a minute ago'. Underneath that, it says '1 contributor'. Below the contributor information, it shows '6 lines (1 sloc) | 44 Bytes'. To the right of this information are buttons for 'Raw', 'Blame', and 'History', along with icons for a monitor, a pencil, and a trash can. The main content area shows the text 'Welcome to AppleTVPlaylistFile Pages'.

## Step 8

Click your [Username](#) on the top left corner, back to the home page.

In [Popular repositories](#), you will see [AppleTVPlaylistFile](#), Click it, you will go to the last Step.

The screenshot shows a GitHub user profile. On the left is a green square avatar with a white 'H' shape. Below the avatar are buttons for 'Add a bio' and 'Edit profile', and a status 'Joined an hour ago'. The main content area has a 'ProTip!' banner at the top, followed by tabs for 'Overview', 'Repositories 1', 'Stars 0', 'Followers 0', and 'Following 0'. The 'Overview' tab is active. Below the tabs is a 'Popular repositories' section with a grid of repository icons. Further down is a '4 contributions in the last year' section with a calendar grid showing contributions from July to June. At the bottom is a 'Contribution activity' section with a 'Jump to' dropdown set to '2018' and a 'July 2018' header.

## Step 9 - Upload playlists to your website.

The screenshot shows a GitHub repository page. At the top, it says 'No description, website, or topics provided.' with an 'Edit' button. Below this is a section with repository statistics: '2 commits', '1 branch', '0 releases', and '1 contributor'. There are buttons for 'Branch: master', 'New pull request', 'Create new file', 'Upload files', 'Find file', and 'Clone or download'. Below the statistics is a list of files: '\_config.yml' (Set theme jekyll-theme-cayman, 26 minutes ago), 'index.md' (Update index.md, 11 minutes ago), and 'ate index.md' (Latest commit 6a9c928 11 minutes ago). At the bottom is a blue banner with the text 'Help people interested in this repository understand your project by adding a README.' and an 'Add a README' button.

Click [Upload files](#)

Drag files here to add them to your repository
